Tete-a-tete - A Joyful meeting

Tete-a-tete: A Joyful Meeting The meeting was a platform to strengthen the relationship between me and my student. It was my first experience and I was very anxious. It helped me to **CELEBRATE THAT CHILD!**

That valuable half an hour helped me to know the child's field of interest, her pets and many other related things personally. Certainly, it's one of the ways to connect with the parents and the students. In fact, the meeting enabled me to cement the gap between a teacher and a student and helped me to get close to her heart not as a teacher but beyond that. Indeed, it was a fruitful experience. I am really grateful to the school management for providing me such a wonderful opportunity.

SPARKS OF IMAGINATION

CREATIVE CORNER

Big or Small let's save them all

Nature is just like a mother
Who just gives and never takes
Yet we pollute nature
What will happen to it in the future
Nature is getting older older
But are we going to live any longer
The bolder and bolder we get
The shorter and harder the nature lives
So from today we will learn that
Trees are our gems
And we will not cut their stems
We would treat animals with love and care
Otherwise they would become rare
We all have a home
So from now we will let them independently
roam
So let's hold each other's hands
To save our precious plants
Because the future is in our own hands
So let's make it our new plan
To save our dear mother land.
